

AKANKSHA GAIKWAD

akanksha.gaikwad_24uds@sanjivani.edu.in | 7020513490 | Vaijapur Maharashtra-423701

Linkedin: <https://www.linkedin.com/in/akanksha-gaikwad-802a31326>

Github: <https://github.com/akanksha427>

Summary:

B.Tech student in Artificial Intelligence and Data Science with strong programming skills in Python, Java, and C++. Knowledge of Machine Learning, Deep Learning, IoT, Cloud, and DevOps fundamentals. Seeking entry-level roles or internships in AI, Data Science, or Software Development.

Education:

Sanjivani University | Kopergaon

B.Tech CSE(AI&DS) | 2027 | CGPA - 7.89 / 10

MIT Polytechnic Rotegaon

Diploma in Computer Technology | 2024 | Percentage- 75.56%

Skills:

Programming Languages: C, C++, Python, Java, PHP

AI/ML: Machine Learning, Deep Learning, CNN, VGG16

Tools: Power BI, SPSS, Arduino IDE

Cloud/DevOps: Cloud Fundamentals, DevOps Fundamentals (Basic)

Projects:

Smart Car Parking System using Arduino (IoT)

- Designed and developed an Arduino-based smart parking solution using IR sensors, servo motor and LCD display.
- Automated vehicle entry/exit detection and parking gate control to reduce manual intervention. Displayed real-time parking availability to improve parking efficiency.

Potato Leaf Disease Detection (Deep Learning)

- Built a deep learning model to classify potato leaf images as Healthy, Early Blight and Late Blight.

- Implemented CNN using VGG16 architecture trained on the PlantVillage dataset for image classification.
 - Enabled early disease identification to support timely action and reduce crop loss
-

Certifications:

- DevOps Fundamentals
 - Cloud Fundamentals
 - Business Intelligence
 - IBM Certified Specialist: SPSS
 - Big Data Computing - NPTEL
-

Languages:

English (Professional), Marathi (Native), Hindi (Professional), German (Basic)
