

APURVA ADHAV

B.Tech in Artificial Intelligence & Machine Learning

Kopargaon, Maharashtra - 423601 | +91 8788214917 | apurvaadhav16@gmail.com | [LinkedIn](#) | [github](#)

SUMMARY

Highly motivated B.Tech student specializing in Artificial Intelligence and Machine Learning with hands-on experience in Python, computer vision, and full-stack development. Successfully built real world projects and scalable web platforms. Eager to apply technical and problem-solving skills in a dynamic internship role.

EDUCATION

B.Tech in CSE (Artificial Intelligence & Machine Learning)	(Expected 2027)
Sanjivani University	CGPA (3rd year): 8.72
Diploma in Computer Technology	(2021-2024)
Sanjivani KBP Polytechnic	Percentage: 89.09%
Secondary School Certificate	(2021)
Sanjivani Academy	Percentage: 81.60%

SKILLS

- **Programming Languages:** Java, Python, C, C++, JavaScript
- **Databases:** MySQL, MongoDB
- **Web Tech:** HTML5, CSS, REST APIs, Flask
- **AI & Vision Tools:** OpenCV, Computer Vision, Image Processing, TensorFlow, scikit-learn
- **Frameworks & Libraries:** React.js, NumPy, Pandas
- **DevOps and Development:** Docker, CI/CD pipelines
- **Tools & Platforms:** Visual Studio Code, Git, Google Colab, Jupyter Notebook

INTERNSHIP

Web Development Intern - Origin Software Solution, Kopargaon (Jun 2023 - Jul 2023)

- Developed responsive web pages using HTML, CSS, and JavaScript.
- Integrated Firebase for real-time data storage and hosting.
- Gained practical experience in front-end development and project collaboration.

IBM SkillBuild Internship on AI & Cloud Technologies (Jul 2025 – Aug 2025)

- Developed and deployed AI models using IBM Cloud and WatsonX.ai.
- Built an NLP-based chatbot with IBM Watson Assistant.
- Gained practical experience in cloud integration and ML workflows.

LLM Post Training Intern - Ethara AI (*Paid Internship*) (Jan 2026 – May 2026)

- Working on LLM post-training and evaluation workflows for real-world AI and data projects
- Gaining hands-on exposure to AI data processes aligned with current industry standards
- Receiving structured mentorship from experienced Quality Leads on LLM fine-tuning pipelines

PROJECTS

Repository Architecture Navigator [Link](#)

- Created a dependency graph to easily understand how different parts of the code are connected.
- Built REST APIs to clone GitHub repositories, analyze file structure, and extract dependencies.
- Deployed LLaMA 3 locally using Ollama for codebase-based Q&A.
- **Technology Used:** React, TypeScript, Python, Flask, Tailwind CSS, LLaMA 3, Ollama

Retail Suspicious Activity Detection System [Link](#)

- Developed an AI-powered surveillance system using computer vision and real-time video processing.
- Implemented person detection, tracking, and suspicious activity analysis using OpenCV and Python.
- Built automated monitoring and alert mechanisms for abnormal activity detection.
- **Technology Used:** Python, OpenCV, Video Processing, NumPy, Tensorflow

Health Predictor: AI-Powered Health Insights

[Link](#)

- Built an AI-based Health Predictor using ML models with ~88% prediction accuracy.
- Implemented facial, voice & lifestyle-based health prediction features.
- Developed an interactive web dashboard for real-time insights.
- **Technology Used:** Python, ML (RF, LR, CNN), Open-source datasets, React.js

Inventory Management System

[Link](#)

- Designed a full-stack web application for real-time inventory, billing and invoice generation using Django and MySQL.
- Utilized MySQL for efficient database management, with XAMPP for local development and testing.
- **Technology Used:** Django, Python, HTML, CSS, JavaScript, MySQL, XAMPP

Vitthal Rukmini Temple Official Website, Pandharpur

[Link](#)

- Designed and launched a website for promoting religious events and facilitating online donations
- Integrated a robust backend to efficiently manage high traffic during peak devotional events.
- **Technology Used:** HTML, CSS, JavaScript, Firebase (Database).

CERTIFICATIONS

- IBM Cloud & DevOps Fundamental
- IBM Watson Machine Learning
- NPTEL Certification (DBMS)
- NPTEL Certification (Software Engineering)
- Full Stack Web Development with React - Coursera
- Deep Learning for Computer Vision – Infosys Springboard

CO-CURRICULAR ACTIVITY

- PROJIT Project Competition
 - Participant, DIPEX–2025
 - EXPRO'26 – Paper Presentation
 - DevKraft Hackathon
 - Logistics & Operations Leader - Developer Students Club (DSC), Sanjivani University (2025 - Present)
-
