## PROFILE SUMMARY

A motivated and detail-oriented B.Tech pre-final year student specializing in Artificial Intelligence and Machine Learning at Sanjivani University. Proficient in Python, data analysis, and machine learning algorithms. Passionate about solving real-world problems through technology. Seeking an opportunity to apply technical and analytical skills in a challenging internship role.

## ACADEMIC CREDENTIALS

- 1) B.Tech | Computer Science & Engineering | AIML | 7.45 | 2027  
(sanjivani University, Kopergaon)
- 2) Diploma in Computer Engineering  
MIT Polytechnic Rotegaon | 73.09 | 2023
- 3) SSC  
New English School Ukkalgaon | 79 | 2020

## PROJECTS

### Online Jewellery Shop

Developed an e-commerce web application for an online jewellery shop, enabling users to browse, filter, and purchase a wide range of jewellery products. The platform included features such as a user-friendly interface, advanced search and category filters, secure payment gateway integration, and a responsive design for seamless use across devices.

### Smart Parking System

Developed an automated smart parking system using ESP32, IR sensors, and a servo motor to detect available parking slots and control gate access. The system displays real-time slot availability and automatically

## SKILLS

Programming Language:  
Java | c++ | Python

Database: My sql

Data visualizations: Power BI

Soft Skill: communication |  
Problem Solving | Team  
Collabration.

Web Technologies: HTML |  
CSS | Javascript

Development Tools: Git |  
Github

## CERTIFICATES

Programming: Great  
Learning: Python, Java

AI & Machine Learning:  
FutureSkill Prime - Acquiring  
Data, EDA by Accenture

Simplilearn - Introduction to  
AI  
LinkedIn Learning  
-Generative Ai

Cloud & DevOps: IBM -  
DevOps Fundamentals, Cloud  
Fundamentals  
AWS Accenture - Cloud  
Essentials

opens/closes the gate for vehicles based on sensor input. It improves parking efficiency and reduces human effort using cost-effective IoT components.

### **Student Attendance Management System**

Designed and developed a digital attendance management system to record, manage, and track student attendance efficiently. The system allows faculty to mark attendance, view reports, and generate summaries, helping reduce manual errors and save time.

Cybersecurity & Process
