

Rucha Dange

Artificial Intelligence & Machine Learning Student | Full-Stack Developer | AI Enthusiast

ruchadange273@gmail.com | +91 9527487575 | Shirdi, Maharashtra, India

[GitHub](#) | [LinkedIn](#)

SUMMARY

B.Tech student specializing in Artificial Intelligence and Machine Learning with hands-on experience in Machine Learning, Generative AI, LLM evaluation, and Full-Stack Development. Built AI-powered applications using LLMs, NLP, and modern web technologies to solve real-world problems.

EDUCATION

Sanjivani University

B.Tech in Artificial Intelligence & Machine Learning
CGPA: 8.48

Kopargaon, India

2024 – 2027

Sanjivani K.B.P Polytechnic

Diploma in Computer Technology
Percentage: 83.86%

Kopargaon, India

2020 – 2024

TECHNICAL SKILLS

Programming: Python, Java, C++, JavaScript, HTML, CSS

Machine Learning & AI: Machine Learning, Computer Vision, Classification, Regression, Feature Engineering, Model Evaluation, Data Cleaning, Exploratory Data Analysis (EDA)

Generative AI & LLMs: LLMs, Prompt Engineering, OpenAI, Gemini, Ollama, LLaMA 3, AI Evaluation, Local Model Deployment

Libraries, Frameworks & Tools: Pandas, NumPy, Matplotlib, Scikit-learn, OpenCV, Flask, React.js, Streamlit, Git, GitHub, Jupyter Notebook, Google Colab, VS Code

Data & Backend Technologies: Data Annotation, Data Validation, Prompt Evaluation, AI Quality Assessment, REST APIs, MySQL, MongoDB, Firebase, Power BI

INTERNSHIP EXPERIENCE

Web Development Intern — Origin Software Solutions

Jun 2023 – Jul 2023

- Developed responsive web pages using HTML, CSS, and JavaScript
- Integrated Firebase for real-time data storage and hosting and Collaborated with team members.

AI & Cloud Technology Intern — Edunet Foundation (AICTE & IBM SkillsBuild)

Sept 2025 – Oct 2025

- Completed a 4-week internship focused on Artificial Intelligence and Cloud technologies
- Applied machine learning workflows and explored cloud-based AI services through hands-on projects
- Developed AI applications using IBM Cloud tools and platforms

LLM Post Training Intern — Ethara AI (*Paid Internship*)

Feb 2026 – May 2026

- Worked on LLM post-training, AI evaluation, and data annotation workflows for real-world AI applications
- Performed data preparation and evaluation tasks supporting LLM post-training workflows
- Contributed to prompt evaluation, AI quality assessment, and human-aligned data validation processes

PROJECTS

Repository Architecture Navigator

[GitHub](#)

React, TypeScript, Python, Flask, Tailwind CSS, LLaMA 3, Ollama

- Developed an AI-powered repository analysis tool to visualize codebase architecture and dependencies
- Built RESTful APIs to parse GitHub repositories and extract dependency information
- Integrated locally deployed LLaMA 3 models using Ollama for AI-powered codebase querying
- Developed the project during a 12-hour hackathon, showcasing rapid prototyping and problem-solving abilities

Pyro-Morph – Mental Health Companion

[GitHub](#)

React.js, Vite, Python, NLP, Generative AI, Tailwind CSS

- Developed an AI-powered mental health companion using NLP and Generative AI for personalized conversational support
- Built responsive interfaces with authentication and interactive dashboard functionality
- Integrated chatbot workflows and voice interaction modules for human-like AI conversations

HealthPredict-AI

[GitHub](#)

Python, Machine Learning, Streamlit

- Developed a machine learning-based healthcare prediction system using symptom-based disease analysis
- Achieved approximately 88% prediction accuracy through model training and optimization
- Built an interactive Streamlit web application for real-time disease prediction

Vitthal-Rukmini Digital Pilgrimage Website

[Link](#)

HTML, CSS, JavaScript, PHP, MySQL

- Developed official website for Shri Vitthal Rukmini Mandir Samiti, Pandharpur
- Implemented backend functionality using PHP and MySQL
- Designed responsive interface accessible across multiple devices

CERTIFICATIONS

- AWS Cloud Technical Essentials
- IBM Cloud Fundamentals
- IBM DevOps Fundamentals
- Predictive Modeling with IBM SPSS Modeler
- Master Microsoft Power BI

ACHIEVEMENTS

- Presented an AI-powered innovation project at the DIPEX Idea Presentation Competition
- Selected for Smart India Hackathon Internal Round among multiple competing teams
