

EDUCATION

Sanjivani University, Kopargaon	
B.Tech in Artificial Intelligence and Data Science, GPA: 7.8	2024-2027
Government Polytechnic, Ahilyanagar	
Diploma in Computer Technology , GPA: 7.50	2021-2024

SKILLS SUMMARY

- **Languages:** Python, Java, SQL
- **Frameworks:** Pandas, Numpy, Scikit-Learn, Matplotlib, LangChain, TensorFlow
- **Tools:** Power BI, PowerPoint, MySQL,Microsoft Fabric, Git, Github, AWS, Microsoft Azure
- **Platforms:** Google Colab, Jupyter Notebook, Visual Studios
- **Data Science :** Data Cleaning, Data Preprocessing, Data Manipulation, Exploratory Data Analysis (EDA),Feature Engineering,Statistical Analysis.

PROJECTS

Suarche Clothing – Responsive E-commerce Web App (Sponsor Project)

- Developed a custom business management system for school uniform and stationery operations, enabling automated billing, inventory tracking
- Designed a system to process Excel uploads and generate structured student-parent data, enabling fast search and class-wise billing automation.

Design and Development of RAG based Medical Report Diagnosis System

- Built an AI system that converts medical reports into diagnoses using a RAG workflow.
- Implemented a report ingestion pipeline for parsing, embedding, and indexing documents using Google embeddings + Pinecone.
- Enabled role-based access (patient/doctor) and stored all diagnosis history for secure review.

Design and Development of Damaged Package Detection System

- Built an AI model for damaged package detection using YOLOv8, enabling real-time identification of defective product packaging.
- Implemented a complete training pipeline including dataset setup, augmentation, model configuration, training, and evaluation.
- Optimized training using Ultralytics YOLOv8, achieving efficient convergence and improved detection accuracy.

EXPERIENCE

Ethara.AI (Remote), Gurugram,Haryana (Paid) Role : LLM Post Training Intern	Feb 2026-May 2026
Zidio Development (Remote), Bengaluru Role : Data Analyst Intern Developed a deep learning–based image captioning and segmentation system using CNN, handling end-to-end data preprocessing, training, and evaluation.	May 2025-Aug 2025
A2Z IT Hub (On-site), A.Nagar,Maharashtra (Paid) Role : Web Development Intern Built a hotel–NGO food donation platform to reduce waste, implementing features like availability updates, pickup scheduling, user management, and supporting backend development, database handling, and system optimization	May 2024-Aug2024

CERTIFICATES

- Learning Analytics Tool by NPTEL
- Business Intelligence by IBM
- Data Analytics by Deloitte
- Database for Developers by Oracle
- Basics of Python by Infosys
- Power BI by Office Master
- SQL by Oneroadmap

CO-CURRICULAR ACTIVITIES

- Qualified for SIH 2025 Online Screening Round
- 2nd Rank in Data Dazzle Data Visualisation Competition
- The 1st IEEE International Conference on Distributed Ledger Technologies, Pune
- Participation in Innohacks 2.0 National Level Hackathon, Pune
- Participation in Sunhacks National Level Hackathon, Nashik
- Participation in Devclash National Level Hackathon, Pune
- Participation in Finessefleet Foundation Project Competition

PERSONAL DETAILS

Permanent Address: Shirasgaon, Ta: Vaijapur, Dist : Sambhajinagar

DOB: 15-12-2005

Languages Known: English,Hindi,Marathi
