

Prathamesh Yelmame

prathameshyelmame558@gmail.com — +91 7843042890

Profile

Motivated Computer Engineering student with internship and project experience in Artificial Intelligence, Agentic AI, and Intelligent Automation. Skilled in developing AI-powered applications using Large Language Models (LLMs), workflow orchestration, API integration, and system automation. Passionate about building intelligent solutions that enhance user experiences and streamline business processes.

Technical Skills

Programming Languages: Python, JavaScript, Java, HTML, CSS

AI & LLM Technologies: Large Language Models, Prompt Engineering, Conversational AI, Agentic AI

Automation & Integration: Intelligent Automation, Workflow Orchestration, API Integration, System Integration

Web Technologies: React.js, Node.js, Express.js, MongoDB

Tools: Git, GitHub, VS Code, Postman

Domains: Artificial Intelligence, Generative AI, Full Stack Development

Education

B.Tech in Computer Science and Engineering 2027

Sanjivani University, Kopergaon

Diploma in Computer Engineering 2024

Matoshri Institute of Technology, Yeola

Percentage: 76.11%

SSC 2021

Swami Muktanand English Medium School

Percentage: 78%

Internships

Ethara AI – Remote Internship Feb 2026 – May 2026

- Worked on AI-powered applications and intelligent automation tasks.
- Gained practical experience with AI workflows and modern software solutions.
- Collaborated on real-world projects involving LLM concepts and automation.

HCL Technologies, Nagpur – Remote Internship May 2025 – June 2025

- Gained exposure to software development workflows and industry practices.
- Completed technical assignments and collaborative development activities.

Projects

AI-Based Dynamic Questionnaire Generator

- Developed a system that generates adaptive questions based on previous responses.
- Used LLM concepts for personalized question flow.
- Automated survey creation and response summarization.
- Improved user engagement through intelligent questioning.

AI Customer Support Chatbot

- Developed a chatbot capable of answering frequently asked questions.
- Implemented conversational AI and prompt engineering techniques.
- Integrated APIs for automated responses and information retrieval.
- Reduced manual support effort through intelligent automation.

Certifications

- NPTEL-Large Language Model
- Oracle – Fundamentals of Java
- Web Development – HTML & CSS

Core Skills

- Problem Solving
- Team Collaboration
- Communication
- Critical Thinking
- Adaptability
- Leadership

Interests

Agentic AI, Large Language Models (LLMs), Intelligent Automation, Workflow Systems, Generative AI, Conversational AI, Full Stack Development
