Career Objective

Passionate Computer Science Engineering student with strong interest in Artificial Intelligence, Full Stack Development, and Problem Solving. Seeking opportunities to apply technical skills and contribute to innovative solutions.

Education

B.Tech in Computer Science Engineering	2024 – Present
Sanjivani Universite	

2 Year CGPA	7.5
--------------------	-----

Diploma in Computer Engineering	79.14%
--	--------

SSC (10th)	84.20%
-------------------	--------

Technical Skills

- Programming: C, C++, Java, Python
- AI/ML: Machine Learning, NLP, OpenCV
- Web Development: HTML, CSS, JavaScript, Node.js, React.js , PHP
- Database: MySQL, MongoDB
- DSA with Java
- Operating System
- Computer Network
- Prompt Engineering
- Google
- Tools: Git, VS Code

Internship

Intern – HCL Technologies, Pune (Online Mode)

- Completed online internship covering software development fundamentals.
- Gained exposure to industry workflows and project lifecycle.
- Worked on real-world technical case studies.

Projects

1. Krishi Suraksha – Smart Farming Platform

- Developed an AI-powered agriculture platform to help farmers make better crop and product decisions. features like crop disease detection, weather updates, and real-time market price tracking.
- Applied logical algorithms and data analysis concepts.

2. Helmet Detection System — (Python, OpenCV, YOLO, AI)

- Built an AI model to detect whether a rider is wearing a helmet using computer vision.
- Implemented real-time detection using a laptop camera.
- Improved road safety monitoring through automated helmet detection.

3. School Management System — (Web Development, Database)

- Created a web-based system to manage student records, attendance, and academic information.
- Implemented modules for student registration, teacher management, and result tracking.
- Improved efficiency in managing school administrative tasks.

Certifications

- Full Stack Development Certification
- Data Structures and Algorithms (DSA) in Java
- NPTEL Certification in Large Language Models (LLM)

Hackathons & Participation

1. Hackathon Participant – Indian Institute of Technology Gandhinagar — Feb 2026

- participant in Hackathon at Indian Institute of Technology Gandhinagar, where I developed and presented Krishi Suraksha, a smart farming solution providing crop advisory, product verification, and market insights for farmers.

2. Participant in Smart India Hackathon (SIH) Des 2025.

- Built an AI-based Job Recommendation Engine that scans resumes using LLM and matches students with suitable opportunities from different companies, with automatic selection notifications in student.

3. AI Workshop Participant – Indian Institute of Technology Gandhinagar — Feb 2026

- Attended an Artificial Intelligence Workshop at Indian Institute of Technology Gandhinagar, learning concepts of AI, machine learning, and real-world applications.

Strengths

- Strong Problem-Solving Skills
- Quick Learner
- Team Collaboration
- Adaptability

Languages

- English
- Hindi
- Marathi

Declaration

I hereby declare that the information provided in this resume is true and correct to the best of my knowledge.
