OBJECTIVE

Motivated and detail-oriented **3rd year B.E. student in Artificial Intelligence and Data Science** with hands-on experience in **Python full-stack development, deep learning projects, and web technologies**. Seeking an opportunity to apply technical skills, problem-solving ability, and innovative thinking to develop intelligent and efficient software solutions while continuously learning and contributing to organizational growth.

EDUCATION

B.Tech – Artificial Intelligence & Data Science	2024-2027
• CGPA: 7.41 Sanjivani University, Kopargaon	
Diploma – Computer Technology	2021-2024
• 90.20% Sanjivani K. B. P. Polytechnic, Kopargaon	
SSC – 10th	2011 - 2021
• Shri Sharda English Medium School, Kopargaon	

SKILLS

- Programming Languages: C++ | Python | Java
 - Data Analytics- IBM Cognos | SPSS
 - Web Development- HTML-CSS | JavaScript
 - Soft Skill: Communication | Time management | Team work | Problem solving
-

EXPERIENCE

Full Stack Development Intern (Python)
Sumago Infotech Pvt. Ltd. – Nashik

- Worked on Python-based full stack development projects.
 - Built and tested web applications integrating frontend and backend technologies.
 - Gained practical experience in database integration, debugging, and deployment.
-

PROJECTS

1. Energy Saver Assistant for Screens (Deep Learning)

- Developed a deep learning-based system that monitors user activity and automatically adjusts screen brightness and sleep settings to reduce energy consumption.
- Implemented inactivity detection and automation techniques to optimize device power usage.
- Focused on improving energy efficiency and intelligent device management.

2. Website for Suraj Constructions

Technologies: HTML, CSS, JavaScript, PHP, MySQL

- Developed a responsive company website to showcase construction services and project portfolio.
 - Implemented modules such as project gallery, service pages, testimonials, and contact forms.
 - Ensured responsive design and improved user experience across devices.
-

3. Python Full Stack Web Application

- Developed a dynamic full stack web application using Python during internship training.
 - Implemented frontend interfaces, backend logic, and database integration.
 - Performed debugging and testing to improve application performance.
-

CERTIFICATIONS

- IBM Predictive Modeling with IBM SPSS Modeler – Oct 2025
 - IBM DevOps Fundamentals – Nov 2024
 - IBM Cloud Fundamentals – Dec 2024
 - IBM Business Intelligence – May 2025
 - MongoDB – June 2025
-

ACHIEVEMENTS

- Received **Paper Presentation Certificates** during diploma studies.
 - Participated in technical presentations and academic events.
-

POSITIONS OF RESPONSIBILITY

- Actively participated in **team-based academic projects** and technical activities.
 - Contributed to **project development and collaboration in group assignments**.
