LinkedIn: <https://www.linkedin.com/in/vedika-taji-216105327>

CAREER OBJECTIVE

Aspiring AIML engineer skilled in Python, ML, and API integration, passionate about building secure, AI-driven solutions that empower users and protect data privacy. Strong problem-solving and collaboration skills with a focus on innovation and real-world impact.

EDUCATION

Bachelor of Technology - CSE With AIML Specialization Sanjivani University, Kopergaon	CGPA: 8.84/10	2024 - 2027
Diploma in Computer Technology Sanjivani K.B.P Polytechnic, Kopergaon	Percentage: 86.29%	2021 - 2024
SSC - Maharashtra Board Arohan Academy, Vaijapur	Percentage: 81.6%	2020 - 2021

TECHNICAL SKILLS

Languages: Python, Java, C++.

Core Java: OOP, Collections Framework, Exception Handling, Multithreading, JDBC.

Web Tech: HTML5, CSS3, JavaScript.

Database: MySQL.

Tools & Platforms: Git, Github, VS Code, IBM SPSS, IBM Watsonx Studio, Google Colab, Power BI.

AI Tools & Utilities: Bolt, Lovable, Cursor, Windsurf, Trae AI, Google NotebookLM.

Frameworks & Libraries: Pandas, Flask, Streamlit, PySpark, TensorFlow, Keras, OpenCV, Scikit-Learn, Hugging Face.

PROJECTS

Designed and Developed SafeVision– Real-Time Smart CCTV Threat Detection System

- Built an intelligent CCTV-based surveillance system to detect unauthorised entry in real time using zone-based monitoring and time-based verification to reduce false alarms.
- Implemented detection of masked individuals and common weapons (handgun/pistol, knife, axe, hammer, metal rod) along with camera tampering detection for improved security reliability.
- Developed an automated alert escalation mechanism that notifies the primary admin and escalates alerts with image and location evidence if no response is received.

Designed and Developed an EmpathyBot – AI-Powered Autism Support Robot

- **Technologies:** Flutter, Python, ESP32, Raspberry Pi, OpenCV, NLP
- Built an AI-powered robot and mobile app for autism support using emotion recognition and NLP.
- Integrated OpenCV for facial emotion detection, NLP for dialogue, and Firebase for real-time data logging.

Designed and Developed Website for Detection of Laryngeal Cancer using Audio Processing

- Built a voice-based cancer detection system using Python, MySQL, and SVM for classification.
- Applied MFCC & ZCR feature extraction to analyze voice signals and achieved 100% accuracy on dataset samples.
- Designed a user-friendly GUI and performed system testing & validation for reliable results.

Designed and Developed Website for Health Predictor – AI-Driven Preventive Healthcare System

- **Technologies:** Python, Scikit-learn, TensorFlow/Keras, Flask

- Built an AI-based health risk prediction system using machine learning and deep learning models.
- Predicted conditions such as cardiovascular disease, diabetes, and skin-related issues.

INTERNSHIPS

Web Development Intern – Smartpacey, Chh. Sambhajinagar | [Jun 2023 – July 2023]

- Completed industrial training and internship focused on Java-based web development.
- Worked on front-end and back-end development using Java and web technologies.
- Assisted in developing and testing web application features while improving debugging and problem-solving skills.
- Gained practical exposure to real-time project workflows, code optimization, and team collaboration.

Post LLM Trainer Intern – Ethara AI | [Feb 2026 – May 2026]

- Worked on training and improving AI/LLM responses through prompt evaluation and response analysis.
- Reviewed AI-generated outputs to ensure quality, accuracy, and contextual relevance.
- Collaborated with the team on data annotation, testing, and optimization tasks for AI model improvement.
- Enhanced analytical thinking, attention to detail, and problem-solving skills through real-time AI training workflows.

CERTIFICATION

- | | |
|---|--|
| • Cloud Fundamentals | Issued by IBM Career Education Program |
| • Predictive Modeling with IBM SPSS Modeler | Issued by IBM Career Education Program |
| • IBM Watson Studio | Issued by IBM Career Education Program |

CO-CURRICULAR ACTIVITY

- Participated Smart India Hackathon (SIH) – Selected till internal round
- Participated State Level Project Competition, Dipex 2025 – Selected till idea presentation round for project proposal
- Participated in the Ohayou Japan Fest, Kopargaon.

EXTRA CURRICULAR ACTIVITY

- Web Development Core Committee Member, Sanjivani University (2025 – 2026).

DECLARATION

I hereby declare that the information provided above is true and correct to the best of my knowledge. I am confident that if given an opportunity, I will deliver my best and contribute positively to the growth of your organization.

PERSONAL DETAILS

Name: Vedika Sachin Taji

Date of Birth: 07 Mar 2006

Gender: Female

Nationality: Indian

Languages Known: English, Japanese, Hindi, Marathi,
