PROFESSIONAL SUMMARY

Full-stack developer with expertise in React, Angular, Node.js, Spring Boot, and Python. Proven ability to design and develop scalable applications including AI/ML platforms, healthcare systems, and agricultural technology solutions. Strong background in RESTful APIs, NLP, and real-time data processing.

TECHNICAL SKILLS

Languages: C++, Java, Python, JavaScript, TypeScript, C#, PHP

Frontend: React.js, Angular, Vue.js, Next.js, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Express.js, Spring Boot, Flask, FastAPI

Databases: MySQL, MongoDB, PostgreSQL, Neo4j, Firebase

AI/ML/NLP: LangChain, OpenAI API, spaCy, KeyBERT, scikit-learn, TensorFlow, YOLO, RAG systems

Tools: Git, GitHub, Docker, AWS S3, Vercel, Streamlit, Postman, VS Code, prompt engineering, agentic AI, LLM, LLMops.

PROFESSIONAL EXPERIENCE

Full Stack Development Intern | HCL Technologies, Chennai (Virtual)

May 2025 – June 2025

- Developed full-stack features using Angular, Spring Boot, and MySQL with responsive UI/UX
- Designed and implemented RESTful APIs with Spring Boot for CRUD operations
- Collaborated in agile environment with daily stand-ups and code reviews

FEATURED PROJECTS

DigiAgro - Agricultural Health Management Platform

Git: <https://github.com/VaibhavN17/digiagro.git> |

- Next.js, TypeScript, React, Tailwind CSS | Multi-role dashboard system
- 8-module farmer dashboard (Animal Registry, Health Monitoring, Biosecurity, Forecasting, Reports)
- Expert/Vet module with Disease Diagnosis, Treatment Plans, Case History
- Real-time alerts for disease outbreaks and critical health issues

medTrust - Medical Fundraising Transparency Platform

Git: <https://github.com/VaibhavN17/medTrust.git>

Hosted: <https://med-trust-eta.vercel.app>

- Next.js, Node.js, Express, MySQL, Razorpay | Role-based system
- Campaign management with document uploads and verification workflows
- Razorpay payment integration with signature verification
- 28 REST API endpoints with JWT authentication and rate limiting

AI Knowledge Graph System - Concept Extraction & Visualization

Git: <https://github.com/VaibhavN17/AI-Powered-Knowledge-Graph-System-for-Intelligent-Academic-Learning.git>

Python NLP (spaCy, KeyBERT) + React + Neo4j + Cytoscape.js

- Automatic concept extraction from academic documents
- Interactive knowledge graph visualization with semantic search

AutoQuizGen - AI-Powered Quiz Generation Platform

GitHub: <https://github.com/VaibhavN17/AutoQuizGen.git>

Technologies: Java, Spring Boot, React, MySQL

- Developed an AI-powered platform for automatic quiz generation from user-provided content.
- Built REST APIs and a responsive interface for quiz creation, participation, and result tracking.
- Implemented quiz management and performance analytics using Spring Boot, React, and MySQL.

Website Traffic Prediction - ML Forecasting System

Git: <https://github.com/VaibhavN17/website-traffic-predication.git> |

Hosted: <https://website-traffic-predication-wfomx5nvnpw2uz7zggnxv.streamlit.app>

- Python, Streamlit, scikit-learn, XGBoost | Multiple ML models
- 20+ engineered features with 5-tab interactive dashboard

Interactive Institute Map - Campus Navigation & Visualization Tool

Git: <https://github.com/VaibhavN17/Interactive-Institute-Map.git>

Hosted: <https://institutemap.infinityfreeapp.com>

Here's a comparable info summary for your Interactive Institute Map repository, following your requested style
PHP, JavaScript, CSS | Dynamic floor maps and interactive search

Multi-level institute map with clickable navigation, real-time search, and responsive design

Features:

- Multi-floor interactive campus maps
- Instant search for rooms, facilities, and staff
- Responsive UI for web and mobile devices
- Built with PHP backend, custom JS interactivity, and tailored CSS styling

Additional Projects: College Chatbot (RAG-based QA), SQL Talker (NL-to-SQL), Real-time Object Detection (YOLOv8), medTrust Platform, Pharma-Empower (Event Management), Interactive Institute Map

EDUCATION

3rd Year | Sanjivani University Kopergoan | 7.89/10 (current)

Diploma in Computer Science | Matoshree Institute of Technology, Dhanore | 81.66% (2024)

SSC | Kailas Patil Vidhyalaya, Vaijapur | 92.60% (2021)

CERTIFICATIONS

- Oracle Certified Java Developer (Core Java, OOP, JDBC)
- Oracle AI & Machine Learning Course
- NPTEL: Fundamentals of Algorithm Design and Analysis

KEY ACHIEVEMENTS

- Developed 12 public GitHub repositories with 100+ stars showcasing production-ready code
- Built end-to-end scalable systems processing real-time data and supporting 100+ users
- Proficient in full-stack development, AI/ML, and real-time systems across agriculture, healthcare, and education sectors
- Strong problem-solving skills demonstrated through LeetCode contributions and complex algorithm implementations
