CAREER OBJECTIVE

Aspiring Artificial Intelligence and Data Science engineer with hands-on experience in Python, Machine Learning algorithms, and API integration. Driven to build secure, scalable, and privacy-aware AI solutions that solve real-world problems. Demonstrates strong analytical thinking, teamwork, and a continuous learning mindset.

TECHNICAL SKILLS

Programming Language: Python

AI/ML Libraries: TensorFlow, Keras, OpenCV, Scikit-Learn

AI Tools/Platforms: Google Colab, IBM Watsonx Studio, ChatGPT, GitHub Copilot

Tools: Git, GitHub, VS Code

EDUCATION

Bachelor of Technology- CSE With AIDS (CGPA: 7.36) Sanjivani University		2024- 2027
Diploma in Computer Technology SNJB Polytechnic chandwad	Percentage: 69.20	2021- 2024
SSC- Maharashtra Board Janata Vidhyalaya Nimon	Percentage: 75.51	2020- 2021

PROJECTS

Pneumonia Detection from Chest X-rays

-Built and trained a CNN-based deep learning model using Python and TensorFlow/Keras to detect pneumonia from chest X-ray images, achieving 91 Percentage accuracy through effective preprocessing and model optimization.

-Applied medical image preprocessing, performance evaluation (confusion matrix, accuracy, loss) and Grad-CAM visualization to improve model interpretability and support AI-assisted healthcare diagnosis.

-**Technologies Used:** Python, TensorFlow/Keras, CNN, OpenCV, NumPy, Pandas, Matplotlib, Grad-CAM, Deep Learning.

IoT-Based Smart Cooking System

-Developed an IoT-based smart kitchen safety system using ESP32 to monitor gas leakage and cooking events through MQ-2 gas sensor and microphone sensor, enabling real-time hazard detection.

-Implemented automated gas shut-off and instant Telegram alerts using servo motor control and IoT communication, ensuring remote monitoring and enhanced user safety.

-**Technologies Used:** ESP32, MQ-2 Gas Sensor, Microphone Sensor, Servo Motor, IoT, Embedded C, Telegram Bot API.

INTERNSHIP EXPERIENCE

Ascentz Technologies, India

July 2025 – Aug 2025

- Completed an AI & Data Science internship with hands-on experience in Python, Machine Learning, and Deep Learning.

- Worked on ML/DL projects involving data preprocessing, model training, evaluation, and visualization using TensorFlow/Keras, NumPy, Pandas, and Matplotlib.

CERTIFICATIONS

- IBM Career Education Program – DevOps Fundamentals
- IBM Career Education Program – Cloud Fundamentals
- Predictive Modeling with IBM SPSS Modeler
