vishalngore45@gmail.com ◇ [linkedin](#) ◇ [Github](#)

OBJECTIVE

To contribute my enthusiasm and passion while gaining invaluable knowledge and experience in the coming years.

EXPERIENCE

AI Intern – Ethara.ai

Feb 2026 – May 2026

Contributing to training and evaluation of Large Language Models (LLMs).
Performing data preparation, prompt evaluation, and model response analysis.

Google Cloud (NASSCOM FutureSkills Prime Partnership)

June 2025 - July 2025

Built a cross-platform AI content generator using Flutter, Flask, and OpenAI GPT APIs.
Applied prompt engineering to enhance content quality and creativity.

EDUCATION

Bachelor of Technology (Artificial Intelligence & Machine Learning)

Sanjivani University – School of Engineering & Technology

Expected Graduation:

2024--2027

6.55 CGPA

Kopargaon

Diploma in Mechatronic

Sanjivani K.B.P polytechnic, Kopargaon

2020 - 2023

Wakadi, rahata

70%

SKILLS

Programming Languages

Python, Java, HTML, CSS, SQL,
MySQL, RESTful APIs, Node.js, ReactJS.

Development skills

Machine Learning, Deep Learning, (OpenCV, TensorFlow, PyTorch)

IoT & Embedded

ESP32, RFID, MicroPython, Arduino ID

PROJECTS

Annual GST Fraud Detection System

Developed a machine learning model to detect fraudulent GST transactions from financial datasets.

UNIFORM Inspection System (AI + OpenCV + Twilio)

Developed a real-time uniform compliance system using OpenCV, Media Pipe, and TensorFlow.

Smart Locker System (ESP32 + Firebase + Web Dashboard)

Built an IoT-enabled locker control system with ESP32 to open/close doors via Wi-Fi.

CERTIFICATIONS

- Predictive Modeling With IBM SPSS
- Deep Learning Analytics
- IBM Watson Studio
- DevOps Fundamentals
- CLOUD FUNDAMENTALS
- Virtual NASSCOM Intern
